President's Message

The orchid show in Denver was very nice. It was a 'Bench Show' but the flowers were very well arranged by type and color to create a beautiful floral show.

There were, as some times before, suggestions that we should have a show in Colorado Springs. Denver has a show to exhibit orchids but the show is also to draw the public to then purchase for-sale orchids to help fund the activities (speakers, etc.) of the Denver Orchid Society. The Colorado Springs Orchid Society doesn't have such need for financial support for our activities. So for what reason should we have a show?

A show would give me a chance to show off my orchids and Lois to show off hers and so forth. A show here would show the public how well orchids can be grown here. A show could exhibit how many various types of orchids there are; educational! A show could inform the public of our society and the many ways that we support each other in learning how to better grow orchids.

Just food for thought.

Good Luck and Good Growing,

Roger Stone
President
